# 2005 IOMICA World Council meeting 18 September 2005 <br> Mooloolaba Yacht Club, Australia. 

Minutes

1. Anders Wallin opened the meeting at 18:45 and noted World Council members present and their voting strength(Appendix B):

The following National Class Associations were represented: AUS, BAR, CAN, CRO, DEN, FIN, FRA, GBR, GER, IRL, NOR, NZL, RSA, USA

2003-05 IOMICA Executive Committee members represented: Lester Gilbert (GBR), Roy Thompson (ESP), Anders Wallin (FIN), Rob O'Brien (AUS)
2.1 Resolution 1 (arcos fees) was rejected

4 votes for, 13 votes against
2.2.1 Resolution 2.1 (rule changes part A) was rejected

37 votes for, 19 against (2/3rds 'for' required to pass)
2.2.1 Resolution 2.2 (rule changes part B1) was rejected

35 votes for, 21 against (2/3rds for required to pass)
2.2.3 Resolution 2.3 (rule changes part B2) was rejected

30 votes for, 26 against (2/3rds for required to pass)
3. Resolution 3. Executive Committee 2005-2007

The meeting elected the following committee:
Chairman: Greg Willis (AUS)
VC Technical: Nigel Winkley (GER)
VC InfoComms: Anders Wallin (FIN)
Treasurer: Rob O'Brien (AUS)
VC Events, VC Measurement, Secretary: Open.
4. Meeting closed at 19:45.

Anders Wallin
IOMICA Vice-Chairman InfoComms
Appendices:
A. Agenda
B. World Council membership and voting strength as of September 2005
C. Proposed Class Rule Changes
D. Nominations for Executive Committe 2005-2007
E. Voting Results
F. Attendance list

## INTERNATIONAL ONE METRE INTERNATIONAL CLASS ASSOCIATION

## World Council Meeting Agenda 2005

Version 1
July 24, 2005

## 1. Welcome

There are three resolutions for the meeting.

## 2. Resolutions

### 2.1. NOTING

That the Organising Committee of the 2004 IOM European Championships, under the chairmanship of Eduardo "Tito" Llana, has not paid IOMICA the fees due to it from those Championships,

DESPITE
The continued attempts by the Executive Committee to obtain the payments due,
the World Council RESOLVES by committee vote
To instruct the IOMICA Executive Committee to take no further action on this matter.
2.2. NOTING

The proposed class rule changes as published on the IOMICA Web site
the World Council RESOLVES by Certificated Owner vote
2.2.1. To instruct the IOMICA Executive Committee to submit Part A to the ISAF-RSD for ratification,
2.2.2. To instruct the IOMICA Executive Committee to submit proposal B1 to the ISAFRSD for ratification,
2.2.3. To instruct the IOMICA Executive Committee to submit proposal B2 to the ISAFRSD for ratification.
2.3. NOTING

The list of candidates for the Executive Committee 2005-2007, and noting the procedure for election of the Executive Committee as published on the IOMICA Web site,
the World Council RESOLVES by Registered Owner vote To elect the Executive Committee 2005-2007.

## 3. Close

## 4. Notes

"Committee vote": Each member of the World Council may cast one vote, and each vote counts equally. In the case of a tie vote, the Chairman of the meeting shall have a casting vote.
"Registered Owner vote": Each member of the World Council may cast their allocated number of votes in proportion to their number of Registered Owners as described in the Regulations and as advised to the World Council on the IOMICA Web site. In the case of a tie vote, the Chairman of the meeting shall have a casting vote.
"Certificated Owner vote": Each member of the World Council may cast their allocated number of votes in proportion to their number of Certificated Owners as described in the Regulations and as advised to the World Council on the IOMICA Web site. In the case of a tie vote, the Chairman of the meeting shall have a casting vote.

## INTERNATIONAL ONE METRE INTERNATIONAL CLASS ASSOCIATION

## Class Rule Change Proposals 2005

## Version 1

July 24, 2005

## 1. INTRODUCTION

This document provides the proposed and agreed Class Rule changes to be put to Certificated Owner vote.

## 2. VOTING

For the purposes of voting, the proposals are divided into two parts. All the proposed changes which IOMICA believes to be straightforward are listed in part A, and are to be voted upon as a block. All proposals which introduce substantive changes to the class are listed in part B , and are to be voted upon individually.

The voting paper to be put to the Certificated Owners reads:

Please cast your vote for these rule changes:

| I agree to the rule changes which are proposed (and some which have <br> been previously agreed) in Part A | YES | NO |
| :--- | :--- | :--- |
| I agree to the proposed rule change B1 | YES | NO |
| I agree to the proposed rule change B2 | YES | NO |

## 3. PART A

To be voted on as a whole.
Many of these proposals are rule changes which have arisen as a result of recent interpretations.
Certain of these rule changes have already been agreed by the ISAF-RSD, and are reproduced here for information and completeness. These rule changes are noted as "already agreed".

### 3.1. Rule A.5.1

Comment: To be clear on which version of the ERS applies.

## Proposal:

Change A.5.1 These class rules shall be read in conjunction with the ERS 2001-2004.

### 3.2. Rule A.11 Dual rating

Comment: We note that there should be no obstacle to dual rating. For example, Marblehead yachts can be certified as M and 10R. It may be technically possible to have an IOM dual-rated and owners should not be prevented from doing this.

## Proposal:

Add A.11.5 A boat may be certified under these class rules without regard to any other certification.

### 3.3. Rules C4, C5, C6: Changes due to the removal of old E4.7 from the RRS

Comment: The following rule changes have recently been made, and require incorporation into the next edition of the Class Rules.

## Already agreed:

## C.4.3 CORRECTOR WEIGHT(S)

Corrector weight(s) to achieve compliance with C.4.2, if used, shall be fixed in/on the hull and not be altered or moved during an event.

## C.4.4 BILGE WATER

Bilge water shall not be used to trim the boat and may be removed at any time.

## C.5.3 REMOTE CONTROL EQUIPMENT LIMITATIONS

(a) The rudder control unit shall control the rudder only.
(b) The sheet control unit shall control the mainsail sheet and headsail sheet only.
(c) Except for control unit positioning information, no radio transmissions from the boat shall be made.

USE
(d) Remote control and related equipment:
(1) shall be refitted in the same position if temporarily removed and/or,
(2) if replaced shall be replaced by equipment of similar weight.

## C.5.4 OTHER EQUIPMENT

Except as in C.5.3 equipment related to changing the rig and/or adjusting the sails and/or the rudder may be altered or moved.
C.6.3 USE
(a) The keel shall not move or rotate relative to the hull, except by deformation under load.
(b) The hull appendages shall not project outboard of the hull.
(c) If removed
(1) The keel shall be refitted in the same relative attitude and position to the hull.
(2) Parts of the keel shall be refitted in the same relative attitude and position to the keel.
(3) The rudder shall be refitted in the same relative attitude and position to the hull.

### 3.4. Rule C.7.4 (b)

Comment: The position of a wind vane should be explicitly unrestricted.

## Proposal:

Change C.7.4 (b) USE
The spar stepping position and wind indicator position are optional.

### 3.5. Rule C.8.3 Identification

Comment: Identification on sails should be permitted under a "grand-fathering" arrangement.

## Proposal:

## Change C.8.3 Identification

Identification shall comply with the RRS in force at the time of the initial fundamental measurement of the sail or with the current RRS.

### 3.6. Rule D.2.1(b)

Comment: Provision has recently been made for Texalium hulls certified before a certain date. This provision must now be incorporated into the Class Rules.

## Already agreed:

D.2.1(b)(6) Hulls listed at the IOMICA web site may have Texalium reinforcement which, apart from the aluminium coating, complies with D.2.1(b)(4). Such hulls shall have a date of initial fundamental measurement between 15 May 2003 and 1 September 2004. This exemption does not apply to World and Continental class championships after 1 March 2006.

### 3.7. Rule F.3.3(b)(5)

Comment: The term spreader is actually printed in "normal" print not in bold in F.3.3(b)(5) describing spreader as an optional fitting of mast. It should be used with the ERS meaning.

## Proposal:

"Spreader" in F.3.3(b)(5) shall be printed in bold.

### 3.8. Rule F.4.4(a)(3)

Comment: The omission of the "/or" after "Swivel and" in class rule F.4.4(a)(3) is a typographical error in Edition 2003 v. 2

## Already agreed:

Replace F.4.4(a)(3) with "Swivel and/or its fitting(s)."

### 3.9. Rule F. 6

Comment: In F. 6 the word rigging does not appear in that section in bold.

## Proposal:

Replace F.6.1 with "Materials of running rigging are unrestricted."

### 3.10. Rule F.6.2(b)

Comment: Piece(s) of elastic or metallic spring(s) are "natural" components of a sheet control line as defined by class rule C.7.7(a).

## Proposal:

Add F.6.2(b)(9) Sheet control line

### 3.11. Rule G.3.1(a)(2)

Comment: This rule produces some trouble because of the use of the words ply and part(s) which is not well understood.

## Proposal:

Replace G.3.1(a)(2) The body of the sail shall consist of:
(i) At least one part and not more than four parts joined by seams and,
(ii) the same type of ply throughout.

## 4. PART B

To be voted on individually.

### 4.1. B1-Rule D. 2

Comment: It is possible to obtain glass fibre that is made from black glass rather than clear glass fibre. It would be rather difficult to discriminate between this and carbon.

## Proposal:

Add D.2.1(b)(6) the glass fibre shall be unpigmented.

### 4.2. B2 - Rules G.3 and G.4.

Comment: A very simple sail shaping method is to cut a slit into the leech of a sail made from a single part of material at or near one batten and then glue the slit back together again with a fraction of sail material overlap. This method is very well suited to low-cost "home made" sails and very in the philosophy of the class.

## Proposal:

Add G.3.1(b)(14) Where the body of the sail consists of one part, slit(s) into the leech may be used to shape the sail.

Add G.4.1(b)(11) Where the body of the sail consists of one part, slit(s) into the leech may be used to shape the sail.

## Nominations for 2005-2007 IOMICA Executive Committee

## August 2005

| Exec position | Name of person nominated | Candidate form received | Commercial interest | 1st nominater | 2nd nominater | Representative if not present at meeting |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Chairman     <br>  yes none Lester Gilbert Roy Thompson <br> Greg Willis (AUS) |  |  |  |  |  |  | (also nominated by RSA) |
|  |  |  |  |  |  |  |  |
| VC Technical |  |  |  |  |  |  |  |
|  | Nigel Winkley (GER) | yes | none | Anders Wallin | Lester Gilbert | Michael Scharmer | (also nominated by AUS and DEN) (also nominated by RSA) |
