

IOMICA Emergency Class Rule Change

25 November 2007

Background

A lengthy discussion followed a question raised by a GBR senior measurer “Does the Spektrum receiver, advertised as a duel receiver, comply with class rule D.2.4(a)(1) that limits the number of receives to exactly one”.

Decision

Despite the fact that a consensus was difficult to reach as to the legality of the Spektrum equipment, the IOMICA Executive believe this Emergency Class Rule Change will remove doubt while in no way adversely affecting the spirit or intention of the IOM Class Rules.

Rule Change

IOM Class Rule D.2.4(a)(1) is changed from

One receiver.

To

One or more receivers.
