

New NCA: The Commonwealth of Puerto Rico

October 16th 2021

Notification of Welcome Announcement of the Commonwealth of Puerto Rico formally joining the WORLD COUNCIL as the newest NCA

World Council Members:

I, Fred Rocha, serving as Chairman of the Executive Committee am proud to announce the completion and approval of the application process allowing Puerto Rico to become the IOM ICA family's newest National Class Association. I am hoping that you will extend your support and welcome to all their participating skippers at upcoming international events. Puerto Rico is excited about promoting their internal growth of the International One Metre, and views this inclusion to our World Council as an important step in formalizing their domestic and international participation now and in the future. Formal PUR NCA contact information will be added to the website shortly, so please help me to make them feel welcome by extending your greetings and support.

If there are any questions or concern, please feel free to contact me anytime at +1-858-752-8227, or frerocha "at" hotmail.com .

With Kindest Regards,
Fred Rocha
Chairman, IOM ICA
